Aspiring Full Stack & AI Engineer with hands-on experience in React.js, JavaScript, Python, API Integration, and AI-powered applications. Built machine learning systems, automation tools, and scalable web interfaces through internships and personal projects. Passionate about developing AI-native products, modern web applications, and data-driven solutions.

EDUCATION

Bachelor of Technology, Computer Science (IOT), <i>KCC Institute of Technology and Management</i> CGPA - 7.4	09/2022 – 09/2026 Greater Noida, Uttar Pradesh
12th Board CBSE, School of Excellence Percentage - 74%	04/2021 – 03/2022 New Delhi, India
10th Board CBSE, School of Excellence Percentage - 87%	04/2019 – 03/2020 New Delhi, India

INTERNSHIP

Frontend Developer Intern – Innhance	03/2026 – 04/2026
- Developed responsive React-based interfaces for hotel management and CRM platforms. - Integrated frontend applications with backend APIs to enable real-time data synchronization. - Built reusable UI components, improving development efficiency and maintainability. - Contributed to WhatsApp automation workflows for customer communication and lead management. - Collaborated with cross-functional teams in an agile startup environment to deliver production-ready features.	
NxtJob.ai – HR Operations Intern	09/2025 – 01/2026
- Supported recruitment operations by screening candidate profiles, generating interview calls, and coordinating schedules across multiple client requirements, ensuring smooth hiring workflows. - Maintained accurate and confidential HR records, adhered to strict data privacy policies, and communicated professionally with candidates and internal stakeholders. - Improved recruitment efficiency by reducing scheduling delays and supporting faster interview closures, contributing to improved candidate experience and operational effectiveness.	

PROJECTS

Skincare Product Recommendation System 📄	01/2026 – 02/2026
- Developed a data-driven recommendation system to provide personalized skincare product suggestions based on user preferences and skin characteristics. - Collected, structured, and analyzed skincare product datasets to identify relevant product attributes and recommendation criteria. - Performed data preprocessing, feature selection, and data transformation to improve recommendation accuracy. - Built recommendation logic using machine learning techniques and rule-based filtering approaches. - Utilized Python, Pandas, and NumPy for data manipulation, analysis, and recommendation generation. - Generated personalized recommendations by analyzing user inputs, product features, and historical preference patterns. - Visualized and interpreted recommendation outcomes to improve user experience and system effectiveness.	
Face Detection Model	06/2025 – 07/2025
- Developed a system to detect faces in real-time from images and videos for security and user authentication purposes. - Implement an efficient and accurate face detection model to identify and track faces in varying lighting and angles. - Used OpenCV and Haar cascades for initial face detection and integrated with Python for real-time video processing. Enhanced performance with image preprocessing techniques. - Achieved 95% detection accuracy and reduced false positives, improving the user experience and enabling fast, reliable face recognition for application deployment.	
Innhance Dashboard	03/2026 – 04/2026
- Developed a React.js dashboard for hotel booking and customer management. - Integrated APIs for real-time data handling and operational workflows. - Built reusable components and improved user experience through intuitive UI design.	

SKILLS

Languages: Python, JavaScript, SQL, HTML5, CSS3
Frontend: React.js, Responsive Design, Tailwind CSS, UI/UX Design
Backend: Node.js, REST APIs
Machine Learning: Scikit-learn, Pandas, NumPy, OpenCV
Databases: MySQL, MongoDB
Tools: Git, GitHub, VS Code, Vercel, Railway, Jupyter Notebook
Concepts: API Integration, SDLC, Automation Systems, CRM Development

CERTIFICATES AND TRAINING

- Machine Learning with Python - AcmeGrade
- Comprehensive 4-module workshop on full stack Web Development (HTML , CSS, JavaScript, Bootstrap) - SoftPro India
